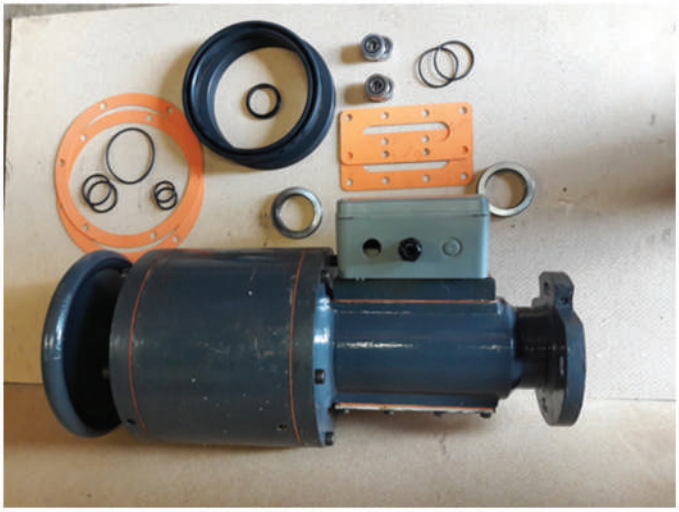
CUPEDO ACTUATORS

Cupedo Actuators – Spares & Overhaul

P&S Automation have competence in the overhaul of Cupedo Actuators, originally purchasing spares from Cupedo in Holland.

Cupedo closed down around 2017 and no other company took over their business assets. We have now sourced spares from original OEMs and have overhauled over 50 actuators (by November 2019).



A 250mm diameter actuator overhauled showing the spares used.

A 200mm diameter actuator overhauled showing the spares used.

Please contact us with your spares or overhaul requirements.
